Your fair companions in your arms. Oftische, rise to arms! Gird on the patriotsword! Form your battaliens ! March ! Let tyrant Blood bopour'd;

Citizens, rise to arms! Gird on the patriot sword To your battaliens! On! Let tyrant blood be poured!

What means that horde of haughty slaves-Conspirators and traitors Kings: What mean the base, intriguing knaves. With these old chains their fury brings Are these for us? Ah! Outraged France! Well may our souls with transport burn When tyranny's insulting glance Dare threaten slavery's return.

Citizens, rise, &c. What! shall their hired and foreign swords In our free homes make laws for us! Shall brutal, mercenary hordes Strike down our own brave warriors thus? Great God! shall hands themselves enchained Beneath the yoke our forcheads bow? And shall vile despots be proclaimed ... Our destinies' sele rulers now?

Citizens, rise, &c. Tyrants, intriguers, who would ride Upon a prestrate nation's neck, Tremble! your threatened parricide At last receives a fatal check. All-all are soldiers in these days; And if our youthful heroes perish, France will produce another race, All ready armed, her rights to cherish. Citizens, rise, &c.

Frenchmen! as generous warriors wont, Now strike and now withhold your blows: Spare, spare, even in the battle front, Victims, unwillingly your foes. But, for that bloody despot-crowd-Associates of false Bouille-Tigers, whose ruthless fury would

Raise thy strong voice! The day is thine-Victory comes-a people's free-The prostrate foe their lives resign-Thy triumph and our glory see!

Scotoing CHILDREN.—Children should be taught to know the connection between action and consequence as soon as possible. What good do you suppose it would do to tell your boys not to roll in the dirt, or run through a mud puddle, telling them as a reason that it cost the parent a great deal of trouble to keep them clean when they roll in the dirt and run in the mud with them; and then as often as they disobeyed your orders give them a thorough scolding, and go and wash and clean their shoes yourself? I your children for doing what you have told orders in his line of business in a tasteful and relieved. People of the West will find it the onthem not to do-just as much good as to soold to an unruly ox for jumping over the fence and eating the green corn, contrary to orders previously given to him. Children are governed by two motives; the hope of reward and fear of unpleasant consequences. A stream of scolding, as long as from sun to sun, never yet had any other effect on children than to render them wholly regardless of what is said to them. If you wish to make your children troublesome, scold them occasionally. If you wish to make them bad, scold them a little harder, loudly and more frequently. If you wish to ruin them, and relinquish all hope of conquering them, scold continually, and you will be sure to gain your object

COLLEGE OF HEALTH, 207 Main st. Buffalo, N. Y.

DR. G. C. VAUGHN'S VEGETABLE LITHONTRIPTIC ADVERTISEMENT FOR 1847 .- "I CAME, I SAW, I CONQUERED;" is most emphatically the case with this article. Disease has ever yielded to its most marvellous medicinal power. Wherever it has gone, and South America, England, Canada, and the United States have proved the truth of this statement, the above quotation in a strong and pithy sentence, tells the whole story. Invalids, he principle upon which you are cured may not be known to you, but the result of a trial of the article is satisfactory; you are restored, and the secret of the cure remains with the proprietor. The medicine is a compound of 22 distinct vegetable agencies, each individual root has its own particular, exclusive, medicinal property, con-flicting with no other compound—each root makes its own cure-and as a perfect combina. tion, when taken into the system, it does the work which NATURE, when her laws were first established, intended it should do-purifies, established, intended it should do-purifies, strengthens, and restores the broken down, debilitated constitution. Daorsy, in all its characters, will be completely cradicated from the system by its use. See pamph'ets in agents hands, for free circulation—they treat upon all discesses and show testimony of cures. GRAVEL, and all complaints of the urinary organs, form also the cause of great suffering, and Vaughn's Lithontroptic has acquired no small celebrity over the country, by the cures it has made in this distressing class of afflictions. So famed, seems, is this medicine, that it has thus attracted the notice of one of our Medical publications. In the November No., 1846, of the Buffalo Journal and Monthly Review of Medical and Surgical Science," in an article upon calculous diseases, and "solvents," the writer, after noticing the fact that the English Government once purchased a secret remedy, and also noticing the purchase in 1802, of a secret remedy, by the Legislature of New York, thus pays tribute to the fame of the Medicine—"Why do not our Representatives in Senate and Assembly convened, enlighten and "dissolve" the suffering thousands of this country, by the pur-chase of Vaughn's Vegetable Lithentriptic, than which no solvent since the days of Alchemy has ossessed one half the fame?" Reader, here is a periodical of high standing, acknowledged throughout a large section of this country to be one of the best conducted journals of the kind in the United States, exchanging with the scientific works of Europe to our certain knowledge, edited by Austin Flint, M. D., and contributed year I have received from all parts of the to by men of the highest professional ability, thus stepping aside to notice a "a secret remedy." ue of this celebrated remedy sufficient to fill You will at once understand no unknown and volumes, of which I have selected a few erthless nostrum, could thus extort a comment from so high a quarter-and consequently, unless it directly conflicted with the practice of the faculty, it must have been its great 'fame' which has caused it to receive this passing nod. KIDNEY diseases, weakness of the back and spine, irregular, puinful and suppressed Menstruction, Fluor Albus, and the entire complicated train of evils which follows a disordered system, are at once relieved by the medicine. end for pamphlets from Agents, and you will find evidence of the value of the Lithontriptic there put forth. As a remedy for the irregularities of the female system, it has in the com-pound a "root" which has been resorted to in the

north of Eurode for centuries-as a sure cure for this complaint, and a restorative of the health of the entire system. LIVER COMPLAINT, relieved. People of the West will find it the on-ty remedy in these complants, as well as Fever and Ague There is no remedy like it, and no calomel or quinine forms any part of this mixture. No injury will result in its use, and its active properties are manifested in the use of a single 30 oz bottle. For Fever and Ague, Bil. nous Disorders, take no other medicine. Rheumatism, Gout, will find relief. The action of this medicine upon the Blood, will change the disease—which originates in the blood—and a healthy result will follow. Dyspepsia, Indigestion, &c. yield in a few days' use of this Medicine. Inflammation of the Lungs, Cough, Consumption also, has ever found relief. Scrofula, Erysipelas, Piles, Inflamed Eyes-all caused by mpure blood-will find this article the remedy. The system completely acted upon by the twenty-two different properties of the mixture, is purified and restored—as a partial cure will not follow. The train of common complaints, Pal-pitation of the Heart, Sick Headache, Debilitydc. are all the result of some derangement o, the system, and this GREAT RESTORER will do its work. The promises set forth in the advertisement, are based upon the proof of what it has done in the past four years. The written testimony of 1000 Agents, in Canada, the United States, England and South America, in the possession of the proprietor-and can be seen by

all interested—is a sufficient demonstrati o that it is the best medicine ever offered to the .. orid. Get the pamphlet, and study the principle as there laid down, of the method of cure. Three years' experience in the business at this place, has fully satisfied them that the "One Price and Ready Pay system" is the best policy for the Merchant, the Farmer. the Mechanic, and in fact, for all concerned. The system has and will enable the Merchant to sell goods at a much less profit, thereby putting into the pockets of the people thousands of dollars every year. NORTONS UNIVRESE COOKING STOVE!

HAVING procured the right to sell the above named Stove in Portage County, take pleasure in making the fact known to the people that they are now prepared to furnish a Cooking Stove superior to any other in use. This Stove is constructed on entire new principles, it being the only Stove ever made, where the oven is heated by hot air alone, made and used by a draft separate from the fire and smoke flue; thereby making this the only Hot Air Stove ever made or patented in the United States. The Air chamber around the oven, which is separate from the flues, is so constructed

to graduate the heat of the even, by distributing the heat so as to make it

IMPOSSIBLE FOR THE OVEN TO BAKE UNEQUAL. which is one of the most valuable qualities a cooking stove can possess. This is the only stove in which meats or anything that will create steam or vapor, can be baked as well as in a reflector, and retain their flavor. The great draft from the oven, through the Air chamber into the ascending flues, convey all the steam and vapor from the oven, which alone gives this stove the decided preference over all other Stoves—on account of its Oven. This is the MOST PROFITABLE STOVE IN USE for the reason, that it will do more work with the same fuel and do it better than any other Stove, and that DOUBLE THE QUANTITY OF HEAT FROM THE SAME AMOUNT OF FUEL is used to better advantage than any other stove; also, because it is more durable, for the reason that five times as much cold air is used to protect the inside or plates most exposed to the fire, as bers that we have not time to read one full air is used to better that we have not time to read one full air is used to be the fire, as bers that we have not time to read one full air is used to be the fire, as bers that we have not time to read one full air is used to protect the inside or plates most exposed to the fire, as bers that we have not time to read one full air is used to protect the inside or plates most exposed to the fire. which is one of the most valuable qualities a cooking stove can possess. This is the only is or can be by any other way. It is the only stove ever made where cold air is used by a draft to protect the inside plates. The external construction of the stove is, in point of convenience, and the design, in point of beauty, far superior to any other cooking stove; and the construction is perfectly air tight. VEGETABLE UNIVERSAL PILLS The only known Medicine which, at the same time Purges, Purifies and strengthens the System.

HE peculiar virtues of these pills have placed them at the head of patented medicines, th excitement of their popularity in Great Britain was called the "Le Roy pill fever." Every one who has taken a box or even a dose of these pills will cheerfully admit that they are superior to any other medicine, the reason is that other purgatives debilitate while La Roy's pills strengthen

and tone the system they purify.

Dr. Le Roy's pills are exclusively vegetable—
many of their component parts are known only to the discoverer and have withstood the tests of the best chemists in Europe, but the principal in-gredients are sarsaparilla and Wild Cherry, each concentrated to a powerful essence, for succeed-ing in which he received the prize offered by the

college of Pharmacy in Paris.

The difficulty with purgatives has arisen from their debilitating influence on the digestive organs so as to produce costiveness and render purging again necessary each counteracting the other. The Vegetable Universal Pills at once tone and strengthen the system, open the pores, act upon the liver and discharge the stomach, temoving only impurities and leave the system free from disease, Sarsaparilla as the best purifier of the BLOOD, which is the life, while as a tonic Wild Cherry, is without a rival, DR. LA Roy has so united them as to avoid all evil effects and have nothing but their virtues action. These pills differ in their operations from al other medicines, which may be tested by a single lose, no weakness or nauses is produced but they brace the system and tone the stomach, at the

SMITH'S TONIC SYRUP. FOR THE CURE OF AGUE AND FEVER OR CHILLS AND FEVER!

THIS remedy has now been extensively used throughout the West and Southwest for the last seven years, and within that period has permanently cured over 200,000 cases, in all its varied forms, many of which had been from one to three years standing, and had resisted all the usual remedies known in this country, and in no case did this medi-cine fail where the directions were followed properly. Such is its invariable success that a large number of respectable pratitioners of medicine, in various parts of the count y, use and prescribe it in preference to Quinine and all other remedies.

The public are assured that it is not only certain in its effects as a Tonic, but being composed entirely of vegetable medicines, s perfectly innocent in any cases or circum-

whatever of any unpleasant effect. This medicine is composed of articles of Western and South-western country,) and in this respect alone is rendered greatly superi-

By its aperient and powerful disphoretic properties, added to its tonic qualities it is rendered eminently superior to Quinine and tificate on the wrapper.

R. F. Crowell, of Putnam, Ohio, certifies that other remedies, as a general and popular Tohe was cured of a severe and distressing cough, nic in all cases whatever where Tonics are proper to be administered. The proprietor, therefore would respectfully invite practitioners and the public generally to give it a feir trial, and they will then be convinced of its great superiority over all other remedies now

in use for the purpose specified.

For the satisfaction of those not acquaint-

the many in his possession: We, the undersigned, do hereby cheerfully certify, that we have sold largely of Smith's Tonic Syrup in our neighborhood, and in very many cases have personally seen and known it used among our customers, and from what we have seen and known of its
